Unexpected Surprise!!

Recently, at one of our new Mobile Patrol Contracts, one of the Mobile Patrol team members received a shock, during his visit.

We complete regular lock up visits at this assignment and on this Saturday night, the Officer arrived on site to complete the lockup as usual. To his surprise, the office was filled with people, enjoying a party. After confirming that the party was authorised by the Client, he arranged to return at a later time, when the party will be finished, to complete the lockup.

The Officer returned later, as arranged, and found that the intruder alarm had been activated. He carefully completed a patrol, in order to ascertain the cause for the activation. When the Officer arrived at the top floor of the building, he got the shock of his life... He was approached by a female member of staff –

in her birthday suit (she obviously enjoyed the party too much)! Embarrassed and not entirely sure where to look, the Officer stood back to find two female Police Officers on site - reacting to the alarm activation. The Police Officers assisted the confused member of staff and escorted her home. This was not the end of the story...

The Officer later entered one of the other floors of the building; he came across another female member of staff, asleep on a sofa, also in her birthday suit. The Officer handled both situations tactfully.

The Client has now promised to inform us of parties on site, in the future.

Hannes Black
(Operations Manager)

A Day in the Life of a Security Officer

"A little boy was lost and wandered in to a supermarket. He went up to the security officer and said, "I've lost my dad." The security officer asked him "What's he like?" and the little boy replied "Beer, takeaways, football, women the usual really".

Security at Unilever from Strength to Strength!!

Situated in Crawley, Sussex and running with a 7-man team including one supervisor working Monday to Friday. The workload is extensive and ever increasing, however the team has remained focused enough to still find time to give their operations manager a run for his money. The team at Crawley is undaunted with the continuous work increase.

Many thanks to the security team at Crawley. They may wish to remain anonymous but I am grateful to all concerned, I feel older, more miserable very stressed and the grey hair is plentiful...However we will continue, no matter how much we come up against difficult situations or problems.

...remember it goes something like this

- "You have not failed. You have just found 10,000 ways that won't work."

C. Tickner
(Operations Manager)

MONEY TALKS!!

Keith Upton - Sales Consultant

For those of you who are not aware, Keith Upton is Eversure management's newly appointed Sales representative. His goal is to drive the sales in Eversure Management forward, ensuring continuous growth!

There is opportunity for all in Eversure Management to profit from growing the business. A new project was launched not so long ago offering each and every employee of the company a chance to make money by introducing

new clients. Employees can benefit from this in the following way:

If you know of a potential client that wants to change their existing security arrangements, then please arrange a meeting for that client to meet with Keith Broom and Derek van Tubbergh.

If Eversure is successful in obtaining that contract then after 3 months of the contract running, you receive commission for your efforts in obtaining that contract!!

et
Latius”**

Eversure came out tops in NSI Inspection!

Eversure Management as you know has been accredited as an NSI gold company for the last 8 years now, and never fared so well at any of its six monthly inspection as it did at the last one!

To remain NSI Gold accredited; NSI inspections are held on a 6 monthly basis to ensure companies maintains continuity in

its standards. However, every 3 years, a major inspection is held, to not only retain our Gold accreditation, but also to ensure that Eversure Management keeps its ISO 9001:2000 certification, which means that the company complies with the required British Industry Standards! This May, was such an inspection

Eversure Management passed with its best result ever!

The next hurdle to cross would be the SIA's Approved Contractors Scheme audit to be held 23-25 July 2007.

All preparations are well underway, and we are confident that Eversure Management will pass with flying colours!

INSIDE STORY...

Eversure Management has a reputation for being one of the best and most Professional Security Service Providers in the Security Industry.

The key to our success is the fact that our company structure has been formulated so that we can provide the maximum support to our employees and clients.

It is the company's policy to treat it employees in the same way as it

would treat its most valued client.

Each employee working in the field can be assured that he or she has the full back-up of the Operations, Human Resources and Accounts Departments!

The company would like to invite each employee to write in with suggestions or any ideas or good stories—security related—to place in the next Eversure

News. One of the purposes of the Newsletter is to bring the company and all its employees closer together, by sharing stories, sharing praise and to relay any informative messages to all EML employees.
